Have your name printed on a few thousand circulars like this, mail or hand them out. In a short time Uncle Sam's Mails will be working hard for you. See our wholesale price list for cost of printing your name on circulars and cost of goods. Big profits for you!

"BOOSTERS"

This book is the result of twenty years' experience in the "Art of Making Money." The author explains in detail, business plans, and tells you just how to operate them. It is dedicated to the man or woman having more time than money. It will show you how to make money out of your idle time. The best way to describe "BOOSTERS" is to give a slight idea of its contents. The book is divided into twenty-one parts. Read the descriptions. It should be to your interest.

Part One. The new, up-to-date way of selling goods by mail. Do you know that selling goods by mail "on the installment plan" is a new, rich and comparatively unworked field? This section tells you all about it.

Part Two. A new style "Trust Scheme" in which there are no "losses." A new, bright idea which any man or woman can work by mail. Unlimited possibilities.

Part Three. The mail order dealer who has a lot of good agents working for him has a fortune in sight. This section tells how to manufacture a staple article, how to create an unlimited market for it and get all the agents you desire.

Part Four. How to get a position when all other means have failed. There is a right way to go after a "job"—and there is a wrong way. There is a right way to advertise for a position—and there is a wrong way. If you will follow the instructions laid down in this chapter—you can secure a position when all other means have failed.

Part Five. This section describes a plan now being worked by a Chicago Mail order firm, who from a small beginning are now doing a business of probably \$50,000 annually.

Part Six. A mail order plan that will please you. Simple, sure and only small capital required.

Part Seven. "A Tonic for Cold Feet." This is a stimulant for the man who gets discouraged. If you can read this section without becoming ENTHUSIASTIC your "cold feet" are standing and fast as lead.

Part Eight. A collection of miscellaneous business starters, from the pen of a man who has a national reputation for devising successful business plans.

Part Nine. Get out of doors! Make money out in the sunshine. This section tells you how.

Part Ten. Details of two simple articles which you can make yourself, and with but little effort build up a tremendous market for.

Part Eleven. The author of this plan claims it is worth \$50000. He claims it is the standard opening in America today.

Part Twelve. Another collection of money-making ideas. You should find something here to make you money.

Part Thirteen. Incorporated in the Mail Order Business! Advertising costs money and eats up the profits. This section tells you how to cut down the advertising bill.

Part Fourteen. A plan that the author claims is good for from \$50 to \$75 weekly without capital.

Part Fifteen. Are you thinking about selling by mail? Will you conflict with the "pure food law"? Better get posted. This article gives the facts pertaining to this law.

Part Sixteen. A practical and sensible plan, very profitable, requires almost no capital. Good for a home business anywhere.

Part Seventeen. A "live wire" scheme and a money-maker. There can be no discounting this plan. It's worth money to any live man or woman.

Part Eighteen. There is one great big money-making "fad" now sweeping this country. "Moving picture" shows are gold mines. This section tells all about how to start one.

Part Nineteen. A new idea and a good one. Simple, high-class and remunerative. Scarcely any capital required.

Part Twenty. A systematic and scientific way to operate a circular mailing bureau. A valuable hint.

Part Twenty-One. A scheme that's a winner. Others have made money with it—so can you. Ready for it anywhere.

Don't send for this book unless you expect to take advantage of the suggestions given therein. The mere fact of sending a dollar will do no good to you unless you take some action after reading the business helps. We don't want your money unless Boosters can help make you money for you.

REMEMBER.—This book is not written by an amateur or a dreamer; it is written by a man who for more than twenty years has been a close student of these everlasting problems and questions which confront all alike. In this book he has tried to answer the question: "How can I make money honestly without grinding my life away in thankless toil for someone else?"

The author claims that there is enough of material in it for the starting of 21 enterprises, any one of which, energetically pushed, should make any man a good living.

We shall be glad to send you this book and know it will please you.

Selected

Opportunities

The Money Making Book you are looking for. No enough for hard times. Twenty-four

money making opportunities for you

Stop Wage Slavery!

"SELECTED OPPORTUNITIES" is the name and it is what hundreds of hustlers all over the country are waiting for! It is the most valuable book of business chances that ever came from a press.

This book is not a rehash of old cheap "schemes" and recipes, every one of the 24 business plans given in the book has been dissected by an expert business plan builder, and stamped with his approval.

Every one, yes, **EVERY ONE**, can surely find within this book **SOMETHING** adapted to his condition; **SOMETHING** that will make him money if earnestly applied. The author doubts not that 10 or 20 years from now will be found persons at the head of prosperous businesses which had their inception from some plan described in this new book of modern plans.

Space forbids more than a simple synopsis of the contents:

- Section 1. A Local Business now in operation in one or two localities. Strictly new, high class, easily handled.
- Section 2. Another Local Business, good for the profits. Any person of ordinary intelligence can operate it. Attractive, high class. This idea will start you going as quick as you see it.
- Section 3. A Mail Order plan. New original sensible. A new, substantial plan for starting a Mail Order Business along a practical line. Everything is given.
- Section 4. A neat Local Business. A "homey" plan but a money-maker.
- Section 5. An unusually high-grade Business Proposition. \$25.00 to \$100.00 capital should be employed and the possibilities range up to over \$10,000 profit.
- Section 6. A plan for coin-ing the dollars in any town. A simple, easy business with enormous profits. Work is anywhere the whole year round. Scarcely any capital.
- Section 7. This section tells you how to make a new "relish" and create an established business with it. You should be able to establish an income for life.
- Section 8. How to start a "Co-operative Store". Can be started anywhere with almost no capital at all, and a 15-year-old boy can handle it. A high-class idea.
- Section 9. Another Mail Order plan. A simple, neat, little proposition that has made money for several people.
- Section 10. Tells you how to put up and sell the most novel proprietary article ever suggested. This is what you want.
- Section 11. Another Local Business, good for a good thing anywhere on earth. Neat, profitable. You can start it right up after reading this section.
- Section 12. A high-class proposition, good for splendid profits. You can work it in your own locality, or you can travel.

- Section 13. This plan should be good for a substantial permanent income. You will admit this when you read about it.
- Section 14. A neat money maker anywhere. It is one of those businesses that gives you a standing in the community.
- Section 15. A business now in operation in many sections. Plenty of room.
- Section 16. Manufacture this staple article yourself and create a business with it according to instructions. Enormous profits and almost no capital required.
- Section 17. A little Mail Order Business that pays you about 500 per cent profit on certain articles suggested.
- Section 18. A business with which a man with a home and wagon supported a wife and nine children comfortably.
- Section 19. An unique, exclusive and profitable Mail Order plan. NEW for the first time published.
- Section 20. A canvassing scheme that has won out. Canvassing is hard work, but here's an easy way.
- Section 21. An unique proposition and a dividend paper. Good anywhere the whole year round. No capital required.
- Section 22. When you read this section and study this plan a bit you will say, "I can make money with this sure." If this plan were the only one in the book you would be satisfied.
- Section 23. Not a "skilled" plan. It's about the best thing in the whole book. You should be delighted with it.
- Section 24. A "bunch" of business tips by the author. In this section he gives you a collection of money-making ideas. Material for several businesses. You should find things in this section to make you independent.

In compiling this work, the author has carefully dissected every plan; he does not believe there is ONE PLAN described but that is practical and workable. He does not think there is one plan given but that you can make money with it if you but try.
