"BOOSTERS"

This book is the result of twenty years' experience in the "Art of Making Money." The author explains in detail, business plans, and tells you just how to operate them. It is dedicated to the man or woman having more time than money. It will show you how to make money out of your idle time. The best way to describe "BOOSTERS" is to give a slight idea of its contents. The book is divided into twenty-one parts. Read the descriptions. It should be to your interest.

Part One. The new up-to-date way of selling goods by mail. Do you know that some goods by mail on the installment plan is a new, rich and comparatively untouched field? This section tells you all about it.

Part Two. A new style "trust scheme" in which there are no "looses." A few bright ideas which can work by mail. Unlimited possibilities.

Part Three. The mail order dealer who has a lot of goods to sell. He has a fortune to make. This section tells how to manufacture a staple article, how to get the instructions from the manufacturer, and how to make an unlimited market for it and get all the agents you desire.

Part Four. How to get a position when all other means have failed. There is a right way to go after a "job"--and there is a wrong way. There is a right way to make a position--and there's a wrong way. If you follow the instructions laid down in this chapter, you can secure a position when all other means have failed.

Part Five. This section describes a plan now being worked by a Chicago mail order firm, who from a small beginning are now doing a business of perhaps $30,000 annually.

Part Six. A mail order plan that will please you. Simple. Sure and only small capital required.

Part Seven. "A Thrill for Cold Feet." This is a stimulant for the man who gets discouraged. If you can read this section without becoming ENTHUSIASTIC, you don't feel that you are part of the action.

Part Eight. A collection of miscellaneous business starters, from the pen of a man who has a national reputation for devising successful business plans.

Part Nine. Get out of debt! Make money out of the sunshine. This section tells you how.

Part Ten. Details of two simple articles which you can make yourself and with little effort build up a tremendous market for.

Part Eleven. The author of this plan claims it is worth $100,000. He claims it is the standard opening in America today.

Part Twelve. Another collection of money-making ideas. They should not be considered as an absolute guarantee. They should only be considered as ideas, and the ideas should be worked out by you.

Part Thirteen. A plan that the author claims to be good for $1,000 to $250 weekly without capital.

Part Fourteen. A plan that the author claims to be good for $25 to $500 weekly without capital.

Part Fifteen. A plan that the author claims to be good for $5 to $150 weekly without capital.

Part Sixteen. A plan that the author claims to be good for $1 to $50 weekly without capital.

Part Seventeen. A "bit of luck" scheme and a money-maker. There can be no disappointment with this plan. It's worth money to any five men or women.

Part Eighteen. There is one great big money-making "fad" now sweeping this country. "Moving pictures" deserve all the publicity they can get. The "new idea" is gold mines. This section tells all about how to start it.

Part Nineteen. A new idea and a good one. Simple, high-pressure, and tremendously capital required.

Part Twenty. A systematic and accurate way to operate a circular making bureau. A valuable hint.

Part Twenty-One. A scheme that's a winner. Simple. Low-stress, low-risk, high-profit, high-pressure, and sure.$100 made with $10 out of pocket. Practice for a few weeks.

Remember—This book is not written by an amateur or a dreamer; it is written by a man who for more than twenty years has been a close student of these everlasting problems and questions which confront all alike. In this book he has tried to answer the question: "How can I make money honestly without grinding my life away in thankless toil for someone else?"

The author claims that there is enough of material in it for the starting of 21 enterprises, any one of which, energetically pushed, should make any man a good living.

We shall be glad to send you this book and know it will please you.

THE PRICE IS ONE DOLLAR
THE VALUE IS FIFTY TIMES THE PRICE
Selected Opportunities

Stop Wage Slavery!

"SELECTED OPPORTUNITIES" is the name and it is what hundreds of hustlers all over the country are waiting for! It is the most valuable book of business chances that ever came from a press.

This book is not a rehash of old cheap "schemes" and recipes; every one of the 24 business plans given in the book has been dissected by an expert business plan builder, and stamped with his approval.

Every one, yes, EVERYONE, can surely find within this book SOMETHING adapted to his condition; SOMETHING that will make him money if earnestly applied. The author doubts not that 10 or 20 years from now will be found persons at the head of prosperous businesses which had their inception from some plan described in this new book of modern plans.

Space forbids more than a simple synopsis of the contents:

Section 1. A Local Business not in operation in one or two hundred. Hardy new high class sales method used.

Section 2. Another Local Business for low profit. Any person of ordinary intelligence can operate it. Almost like new.

Section 3. A Mail Order plan. A new and wonderful plan for starting a Mail Order Business doing a practical line. Everything is given.

Section 4. A cash Local Business. A "money" plan but a money-maker.

Section 5. An unusually high-grade Business Proposition. $25.00 to $200.00 capital should be invested and the possibilities range up to over $1,000 profit.

Section 6. A plan for starting the business in any town.

Section 7. This section tells how to make a new money-making plan.

Section 8. How to start a "Co-operative Store." Can be started anywhere with almost no capital at all, a 15-year-old boy can handle it. A high-grade idea.

Section 9. Another Mail Order plan.

Section 10. Tells you just how to put up and sell the most novel proprietary article ever marketed. It is a big time winner.

Section 11. Another Local Business needs for good location. Money-making plan for a small capital.

Section 12. This plan should be good for a substantial profit. You will admit this when you read it.

Section 13. A cash money-maker anywhere in any market. It can be started with a few dollars and will yield good profit. No capital required.

Section 14. Manufacures this article yourself, or get a business list of 10 articles sent you for $2.00.

Section 15. A business proposition for a man with a home and a wife and three children comfortably.

Section 17. A money-making scheme that has won out. Connecting in hard work but sure of an easy way.

Section 18. No capital required. Good anywhere. The whole year round. No capital required.

Section 19. When you read this section and study this book a bit you will see that you can make money with this plan. It is the only one in the book you would be satisfied.

Section 20. Not a "shingle" plan. It's the best thing in the whole book. You should be delighted with it.

Section 21. A "bundle" of business tips by the author. Material for several business. You should find things in this section to make you independent.

In compiling this work, the author has carefully dissected every plan; he does not believe there is ONE PLAN described but that is practical and workable. He does not think there is one plan given but that you can make money with it if you but try.
