THREE "K" SPINNING CHARM

Here is the slickest little charm on the market. The above front and back illustrations show how the charm appears when being worn. Note the characters mean nothing whatever when thus shown. Spin the disk and we have "K. K. K." as shown in the center illustration above. This is just the charm Klansmen want. Agents sell them like hot cakes. Made in three qualities. Order by number and quality wanted.

No. 54-P. Gold Plated ...... $1.50 each 3 000 per dozen

No. 720—Price 25¢ Each

Spinning Watch Charm

Patent Pending

A Real Charm and a Real novelty
We show here two views of this wonderful novelty. First is a front view showing how the charm appears when spinning. The other is a side view. The front view when not spinning is simply a mass of mixed-up characters that no one can understand. Just the kind of a charm many members want. An invisible emblem charm for members of the Invisible Empire. But note how plain the emblem is brought out when spinning: note the three K's formed about the triangle and also note the four mysterious letters. A. K. K. A.—how neatly they are placed within the triangle. This charm can rightly be termed the mystery charm, as its characters contain many secrets if you will study them well. Made in gold plated quality only.
No. 54-S—Price $2.50 Each
