## Spinning Watch Charm

Patent Pending  
A Real Charm and a Real Novelty

We show here two views of this wonderful novelty. First is a front view showing how the charm appears when spinning. The other is a side view. The front view when not spinning is simply a mass of mixed-up characters that no one can understand. Just the kind of a charm many members want. An invisible emblem charm for members of the Invisible Empire. But note how plain the emblem is brought out when spinning; note the three K's formed about the triangle and also note the four mysterious letters, A. K. I. A.—how neatly they are placed within the triangle. This charm can rightly be termed the mystery charm, as its characters contain many secrets if you will study them well. Made in gold plated quality only.
